## EXPERIENCE

● 2568

### Portfolio Project

- Developed a personal portfolio website using Next.js and Tailwind CSS to introduce myself and showcase my skills in creating responsive, modern, and visually appealing web applications.

● 2568

### Room Booking System

- I, together with my team, developed a web application using the MERN Stack that allows users to reserve classrooms, meeting rooms, and laboratories. It features a user-friendly interface that simplifies room selection and booking management.

● 2568

### Smart Bin

- I, together with my team, developed an automated waste-sorting and rewards system that identifies trash types, tracks user deposits and awards points in real time. A Streamlit dashboard visualizes users and per-category waste volumes from a MongoDB database.
